### Feedback

- Establish a bicycle advisory committee including representatives from health, economic development, and community groups.
- Adopt statewide bicycle connections between communities. The National Complete Streets Coalition has a model state policy and a variety of other resources to ensure adoption and implementation.
- Dedicate state funding for bicycle projects and programs, especially those focused on safety and eliminating gaps and increasing access for bicycle networks. This is more than just a Share the Road campaign.
- Support growing local advocacy groups.
- Update the statewide bicycle plan that addresses each of the five "Es", has clear implementation actions, and performance metrics to gauge success.
- In general, any question that was answered with "no" should be addressed so the answer can be a "yes" next year.

### One Bicycle Friendly Success

Alaska's bicycle commuter mode share is almost double the national average.

### Top Tip for Improvement

Adopt a vulnerable road user law that includes a minimum safe passing distance and stricter consequences for violations.
